

EUPO Course 2018 - Nice - Oct 3-4
Wednesday Oct 3

Introduction of the EUPO Course	8:30-8:30
Anatomy and imaging techniques (15 min)	8.30-9.45
Blood retinal barrier	
Fluorescein angiography and ICG	
OCT: from anatomy to imaging	
OCT angiography	
Immune tolerance and its alteration	

Coffee	9.45-10.15
--------	------------

What to do when I see...(15 min each)	10.15-12:00
Serous retinal detachment	
Atrophy of the retina	
Detachment of pigment epithelium	
Black & White dots	
Vasculitis	
Inflammatory macular edema	
Pigmented tumor	

Round table : How do you diagnose these cases	12:00-13:15
Moderators with cases of AMD, DME, DEP, dome shape, myopic choroidal neovascularisation, bruch rupture, VKH, Sarcoidosis, Syphilis	

Lunch	13:15-14:15
-------	-------------

How does it work ?	14:15-15:45
AntiVEGF	
Steroids	
Laser	
PDT	
Radiotherapy	
IS and biologics	

Round table : How do you treat these cases	15.45-17:15
Moderators with cases : AMD 3 cases, DME 2 cases, DME + ischemic DR, ME due to VO, Ischemic vein occlusion, mac tel, Inflammatory choroidal neovascularization, Behçet's disease, Birdshot retinochoroidopathy, Acute retinal necrosis syndrome, sympathetic ophthalmia, IRVAN syndrome	

Best cases: selection of the 3 best cases (among 10 reviewed by committee priori EUPO and then presented)	17:15-17:45
---	-------------

Thursday Oct 4

EVER Welcome and EVER-Acta lecture	8.30-9.15
My children cannot see	9.15-10.30
Inherited disease: from diagnosis to treatment	
Macular edema	
Vitritis	
Exudative diseases	
ROP	

Coffee	10.30-11:00
--------	-------------

EVER Lecture	11:00-11:30
--------------	-------------

Surgical diseases and miscellaneous	11.30-12.15
Vitreomacular interface: new disease or new classification	
Retinal detachment in myopic patient	
Central serous chorioretinopathy and ERD	
Toxoplasmosis	
Lymphoma	

Round table: my job is difficult!	12.15-12.45
Metastasis, choroidal ischemia, endophthalmitis, serpiginous
