

June 15-16, 2019 in NICE, France

Glaucoma & Cataract

Course Directors:

- **Glaucoma:** Prof. Carlo E. Traverso, University of Genova, Italy
- **Cataract:** Prof. Marie-José Tassignon, University of Antwerp, Belgium

The 2019 EUPO course is the second in a series redesigned to match the topics of the four viva voces that each candidate will face when they take the EBO Diploma Examination to become a FEBO.

The glaucoma syllabus is also a review of the European Glaucoma Society Guidelines in preparation for the EBO exam.

2019: Glaucoma & Cataract
Nice, June 15-16, 2019 with SOE

2020: Refraction, Strabismus, Pediatric Ophthalmology & Neuro-ophthalmology

2021: Cornea, External Diseases & Orbit

For those not planning to take the EBO Diploma Examination, the 2019 EUPO Course provides an update on what is new and current, and thus will help in differential diagnosis and in choosing treatment in their offices and practices.

Supported by an
educational grant from

training future ophthalmologists : including you

June 15-16, 2019 in NICE, France

Glaucoma & Cataract

The redesigned courses have a syllabus based on short lectures, which will highlight what is new after the previous EUPO course on the same topic, plus cases and round table discussions that prepare participants to respond in viva voces.

- How do you interpret this...
- Gonioscopy and anterior segment OCT
- IOL calculation: how precise are we?
- Ideal wound shape and wound size
- Treatment principles and Target IOP
- Lens extraction techniques
- How do I treat this patient...
- What to do when I see...
